

Valor Computerized Systems, Inc. announces the promotion of new Vice President of Sales for the US.

Lake Forest, CA – August, 2002 – Valor Computerized Systems, Inc., a global leader in productivity enhancing software solutions for the electronics industry announced today the promotion of Patrick McGoff to Vice President of Sales for North America.

Mr. McGoff has been employed with Valor Computerized Systems, Inc. since 1996, and has held a variety of different positions, most recently at Director of Sales for Valor Computerized Systems' Enterprise 3000 DFM software solution. In his new job duties, Mr. McGoff will be responsible for the sales of all of the Valor Computerized Systems products throughout North America, including the Enterprise 3000 DFM software solution, the Trilogy 5000 software solution for test and assembly engineering and the Valor Parts Library (VPL), the industry's leading on-line data source of geometric part information. Previously, Mr. McGoff held various sales and sales management positions with Gerber Scientific Inc. Mr. McGoff also holds a BBA degree from Georgia State University.

“Pat has over 15 years experience in the PCB software industry. His talents mirror Valor's market direction with experience in Fabrication, Design and Assembly. Pat has had a stellar career at Valor over the last 6 years, achieving and exceeding personal and company targets consistently. It was a natural progression for Pat to take over the US sales organization and to take Valor Inc. to the next level of success” stated Chuck Feingold, President Valor Computerized Systems, Inc.

About Valor

Valor Computerized Systems [Neuer Markt: VCR] is a global leader in providing business productivity tools throughout the design-through-manufacturing electronics supply chain. Valor is a public company listed on the Neuer Markt of the Frankfurt Stock Exchange.
